B.E. Computer Systems Engineering · Mehran UET (2021–2025)

SUMMARY

AI Engineer with 6 months of professional experience plus a 12-month research project. I design and build AI systems across machine learning, generative AI (RAG, LLMs), computer vision and AI automation — turning complex data, documents and workflows into useful, well-engineered products. Strong full-stack background in Python, FastAPI, Next.js, PostgreSQL and vector databases (Faiss, Pinecone).

EXPERIENCE

AI Hackathon Participant · Sofstica Solutions · Karachi · 08 / 2026 · Project-Based Learning

Built and shipped end-to-end AI features across the full stack as part of a project-based learning sprint.

- Designed and shipped production RAG assistant prototype end-to-end.
- Built AI agents wired into real customer workflows through FastAPI.
- Implemented document-intelligence pipeline for unstructured data extraction.

AI Engineer Intern · ITSolera Pvt. Ltd. · Karachi · 01 / 2026 – 04 / 2026

Built LLM-powered features for client products.

- Engineered LLM-powered client features with retrieval pipelines.
- Deployed AI agents wired into customer-facing workflows.
- Built Python prototypes for internal data tooling.

AI Engineer Intern · Civil Aviation Authority of Pakistan · Karachi · 07 / 2025 – 08 / 2025

Worked on internal data-driven tooling and prototype ML features for aviation operations.

- Built exploratory analytics dashboards on operational aviation data.
- Prototyped ML prediction workflows for internal use.
- Wrote Python data-cleaning + feature-engineering pipelines.

AI Researcher · SAFELINK · Mehran UET · Undergraduate Research · 11 / 2024 – 11 / 2025

Led research on a multimodal smart wearable for personal safety.

- Fused computer vision + IMU + audio anomaly detection on-device.
- Implemented YOLO-based threat-context detector running on edge hardware.
- Built SOS escalation pipeline routing live location + audio to contacts.
- Delivered SAFELINK v1 working prototype at Mehran UET.

SELECTED PROJECTS

01 · ClinData Explorer · Healthcare AI

AI-powered clinical cohort and data-quality explorer · Text-to-SQL · 912K records · Live on Azure.

02 · McDonald's AI Agent · Customer AI

AI customer-support and order-management workflow · LLM · FastAPI.

03 · CardioRisk AI · Clinical Decision Support

Heart-disease risk prediction · 97.6% accuracy (SVM) · 3,800+ patients · Next.js + Python + Vercel.

04 · Enterprise RAG Assistant · Document Intelligence

Retrieval-augmented generation system for enterprise document intelligence · Vector DB · LLM.

05 · Radiomed · Clinical AI

Automated medical image diagnosis assistant · CNN · 99.8% top accuracy · Brain MRI / Chest X-ray / Lung CT.

06 · SAFELINK · Multimodal Wearable

Multimodal smart wearable for personal safety · Computer Vision + Edge AI + IoT.

07 · Revenue AI · Sales Forecasting

Sales forecasting platform · Polynomial Regression · 95.3% R² · 0.903 MAE · Streamlit.

08 · OutreachAI · AI Automation

AI-powered email outreach agent · n8n + OpenRouter LLM · 50+ personalized emails/day · \$0.02/email.

SKILLS

Generative AI: RAG · LLM APIs · Prompt Engineering · Semantic Search · Vector Embeddings · Faiss · Pinecone · Context Engineering

Machine Learning: Classification · Regression · Feature Engineering · EDA · Model Evaluation

Computer Vision: YOLO · Image Classification · Object Detection · Roboflow · Data Augmentation

Engineering: Python · C++ · FastAPI · REST APIs · SQL · PostgreSQL · HTML · CSS · JavaScript · PHP · Git/GitHub

AI Automation: n8n · AI Agents · Webhooks · API Integration · Workflow Automation

Infrastructure: Docker · Vercel · Azure · GCP · Streamlit · Jupyter · Google Colab

EDUCATION

B.E. Computer Systems Engineering · *Mehran University of Engineering & Technology* · 2021 – 2025

ACHIEVEMENTS

- Designed and shipped production RAG assistant prototype at Sofstica hackathon.
- Led 12-month SAFELINK research project to working prototype at Mehran UET.
- Completed 3 AI internships across industry (ITSolera) and government (Civil Aviation Authority).
- B.E. Computer Systems Engineering, Mehran UET (2021–2025).
